I'm a **fast, organised person with a warm, positive attitude**, good with customers and calm in a rush. I notice the small things people don't ask for, which is why regulars kept coming back and asking for me by name. I've worked luxury retail, a cinema counter and a front desk, and I'm a **designer too**, so I can help with the visual side of a shop as well: displays, menus, posters and social media design.
